REGISTRATION Communication Skills Enrichment Workshop

*Saturday,
June 7, 2014
10:00 am – 6:00 pm*

This invaluable Communication Skills Enrichment Workshop covers topics ranging from empathic listening to non-confrontational conflict resolution. Participants will also practice when to listen versus when to offer information, tuning into feelings, and setting comfortable limits. The fundamental principles are empathy, genuineness, and respect for the individual. Structured, interactive practice is provided and led by trained Communication Skills Instructors. In a safe environment, the practical emphasis is on "doing" instead of "talking about" doing.
